Rohan Srivastava

WEB DEVELOPMENT.

PROFILE SUMMARY

Hello, World! ⬚ I'm Rohan, a MERN Stack web developer, a Computer Science Sophomore with an unmatched enthusiasm for learning. I enjoy creating things that live on the internet and turning problems into beautiful designs. I primarily focus on JavaScript, React, and CSS.

While I love front end development and design, I'm also comfortable using back-end tech including Node.js, Express.js and MongoDB.

Transitioning to web development has enabled me to continue my passion for learning and embrace my status as a forever student. I love to work as part of a dynamic team and find the challenges that programming brings very exciting!

ACCOMPLISHMENTS

- SIH College Finalist
- Hult Prize Regional Finalists
- PlaceCom Co-ordinator
- 4 star on CodeChef
